CUSTOMER INSTALLATIONS

The Body Shop Outlets Europe & US, Nike Stores Europe, Pieology, Superdry worldwide, Mothercare, L'Occitane, The Range, Hancock's of Paducah

CASE STUDIES

Pieology

Pieology, with over 150 locations, creates quality, custom pizza. PrintPad 970 was integrated with the POS to coordinate POS receipt to pizza ID tag number to improve speed of table delivery and order accuracy.

Hancock's of Paducah

Hancock's, is the largest fabric retailer in the world. PrintPad 970 was used to turn the handwritten receipt into a bill of materials to facilitate faster order processing, increased staff productivity and greater customer face time.

Labeling, Ticketing and Receipt Printing Product Brief

APPLICATIONS

Price tags, Product tags, food labels, shelf labeling, product marking, Point of sale receipts, coupons, amusement park/theater ticketing, wristbands, event admission, access control, dining-order fulfillment, receipt/coupons, gaming, parking lot ticketing and mark down labels.

BENEFITS

CloudBox goes beyond traditional receipt, ticketing and labeling solutions. It can provide a total solution, or can work with most legacy printers already in place.

- ✓ Faster ticket output
- ✓ Greater employee productivity
- ✓ Label customization
- ✓ Labeling cost reduction
- ✓ Easy Point of Sale integration
- ✓ More accurate orders
- ✓ Human error elimination
- ✓ Enhanced Customer Experience

POWERED BY:

LABEL & TICKET EXAMPLE

PRINTPAD 950

Serial connection to only Zebra ZBI enabled printers.

- PS/2 pass-through port for connecting barcode readers
- Simple firmware command set versus PrintBox 970's operating system and application.

PRINTPAD 970

- Intelligent standalone, networked or cloud-based desktop printer solution scaling to multiple devices, and/or multiple locations.
- Works with virtually any printer – direct or networked.
- Connectivity options include Ethernet, Wi-Fi, or Bluetooth.
- SQL database management for high content and complex labeling which can pulling data from multiple files. For example, food labeling can include food allergens, ingredients, nutritional value, sell by date, and standard barcode pricing - all which can be in different file structures.
- 4 USB ports for printer, scanner, scale or keyboard connection

PRINTBOX 9000

- Desktop and Mobile printing can be accessed from the same PrintBox by using ANY device with a web browser: PC, RfID terminal, Smartphone or Tablet.
- A Wi-Fi or network infrastructure is not necessary as PrintBox can generate its own connectivity. For maximum connectivity flexibility the PrintBox also supports Bluetooth.
- SQL database implementation and management as standard
- Now Available, Android Terminal on-device implementation for mobile, desktop, hospitality and retail label printing.

PRINTWORX

Recognizing the need to create custom label formats without having to write application software, PRiNTWORX (Lite) is an easy to use embedded label design application on the PrintBox 970 and PrintPad 9000. For mobile capability in a standalone environment, PRiNTWORX can also run on an Android terminals using a Bluetooth mobile printer.
